

Florida Institute of Technology

Summer 2009

Evans Library's

Graduate Research Workshop

Friday

June 19

1:00 - 4:30 p.m.

**Need help finding and using high-quality information resources?
In the midst of your dissertation or thesis research?**

Read what former participants had to say about the workshop.

"[This workshop is] very important to learn how to effectively search library resources so that you can use your time wisely and make your life easier."

- Lisa Cole, Masters in Chemical/Biomedical Engineering

"Very informative! Amazing help. I no longer feel lost about my research. Great detail and very knowledgeable."

- Iris Rivera, Masters in I/O Psychology

"The Graduate Research Workshop opened a big window to the world for me. I was very surprised by all the resources available to us at the Library. It is my opinion that every student should have the good fortune to be exposed to this valuable resource."

- Jim Muehlen, Masters in Systems Engineering

Plan now to attend this valuable workshop! Reserve your spot now; the **registration deadline is Monday, June 15th**. You can enroll by printing out the enrollment form on page 3 of this site and submitting it to the Evans Library Service Desk or by enrolling online at <http://www.lib.fit.edu/pubs/workshops/cfm>. For additional information or questions about this workshop, contact Joanne Savage, Instructional Programs Technician at jsavage@fit.edu or 321-674-7656.

RESERVATIONS ARE REQUIRED!

This half-day workshop will be held in the
Evans Library
Edwin A. Link Multimedia Room (2nd Floor).

The workshop will cover:

Module I:

Research Essentials

- master the most common database research strategies
- consider the importance of the thorough literature review and academic integrity
- receive guidance on where to obtain the best publication format tips

Break

Module II:

Library Information NetworK (LINK) Resources and Services

- take full advantage of resources available on the Library's home page
- make life easier for yourself through effective use of LINK services (remote book renewal, interlibrary loan, remote database access)
- learn to judge the value of Internet resources

Module III:

Subject-specific Breakout Sessions

- identify the most effective bibliographic research tools for your discipline
- participate in tailored instruction on the best resources for your particular dissertation or thesis research

We hope to see you at the next Graduate Research Workshop!
